

PaediaCRO

is a Munich-based, specialized CRO providing solutions for the development of medicinal products for paediatric patients!

You are welcome to apply for freelance positions as:

- **Medical Writer**

You have a degree in life science and at least five year experience in establishing documentation for medical science, regulatory affairs and / or clinical development.

Experience in development of medicinal product for the paediatric population is beneficial but not mandatory.

You are aware of the requirements of the Paediatric Regulation and ICH E11.

English native speakers preferred. A good command of other languages is beneficial.

Please send your electronic application including your daily rate to:
